UNIVERSITEIT  
AMSTERDAM**

LOOKING FURTHER

## "BETTER DECISIONS FOR A BETTER WORLD"

The bachelor Philosophy, Politics and Economics (PPE) at VU Amsterdam will prepare you for future leadership positions in business, politics, academia, and beyond. The programme offers thorough knowledge of the three core disciplines, and teaches students to apply this in an integrated way. With extensive internship and exchange opportunities and additional guest lectures by people from the world of economics and politics, the PPE programme combines theory and practice in a unique way.

### WHY STUDY AT VU AMSTERDAM?

The PPE programme at VU is the very first large-scale PPE programme on the European continent. The programme is designed for excellent students who want to study in a vibrant and international community. Situated near the dynamic Dutch financial centre Zuidas, and close to the dynamic Amsterdam city centre, VU is the ideal location to study PPE.

"THROUGHOUT THE PROGRAMME, YOU WILL WORK ON REAL-LIFE PROBLEMS, INTEGRATING KNOWLEDGE FROM THE THREE DISCIPLINES"

Prof. dr. Martin van Hees  
Programme director PPE

### FUTURE PROSPECTS

A PPE degree opens many doors for you. Whether you choose to continue your education, move directly into a career in the business, politics, or public administration, or do something entirely different, PPE will equip you as a leader with the interdisciplinary knowledge and skills needed to address the emerging problems of the 21st century.

Depending on the tracks of study selected, PPE graduates will be eligible for Master's courses in each of the three PPE disciplines. PPE graduates go on to exciting careers in politics, finance, NGOs, media, journalism and more!

### IS PPE FOR YOU?

If you are interested in the ethics of public policies, understanding the way that political decisions shape markets, or thinking about how scarce resources should be globally distributed, then PPE is for you.

BACHELOR  
STUDY TYPE: FULL-TIME/THREE YEARS  
LANGUAGE: ENGLISH
